

REQUEST: Can you help us find the following information for individual options?

Volume of Emissions:

Benefit/cost of reducing CO2 —cost per ton reduced:

How implementable the option is in Utah:

Impacts, distribution of burdens, co-benefits:

Other comments/assessments:

If so, please do one of two things:

1. Provide us a specific reference. (Report and where we can locate it. Specific page numbers, if known.)
2. Fill in the information on an option page (available on the website) and include where you got the information.

Questions?
